

# SEVEN GOATS

Early years

**THE STORY***Do you know the Seven Goats?*

There is a mother goat who has seven kids. She has to leave home to get some food. Before that, she warned them not to open anybody because there is a big bad wolf out there just waiting for his chance to eat them.

The mother goat tells the children the wolf can be cunning. Kids should be aware her voice is nice and soft and wolf's voice is deep and rough. Her fur is white, and his fur is black, so they should notice the difference.

Soon after she leaves the house, wolf knocks on the door and wants to enter. After many attempts, the wolf finally manages to get in. He eats them all but the youngest. But this kid hides in a grandfather clock and survives.

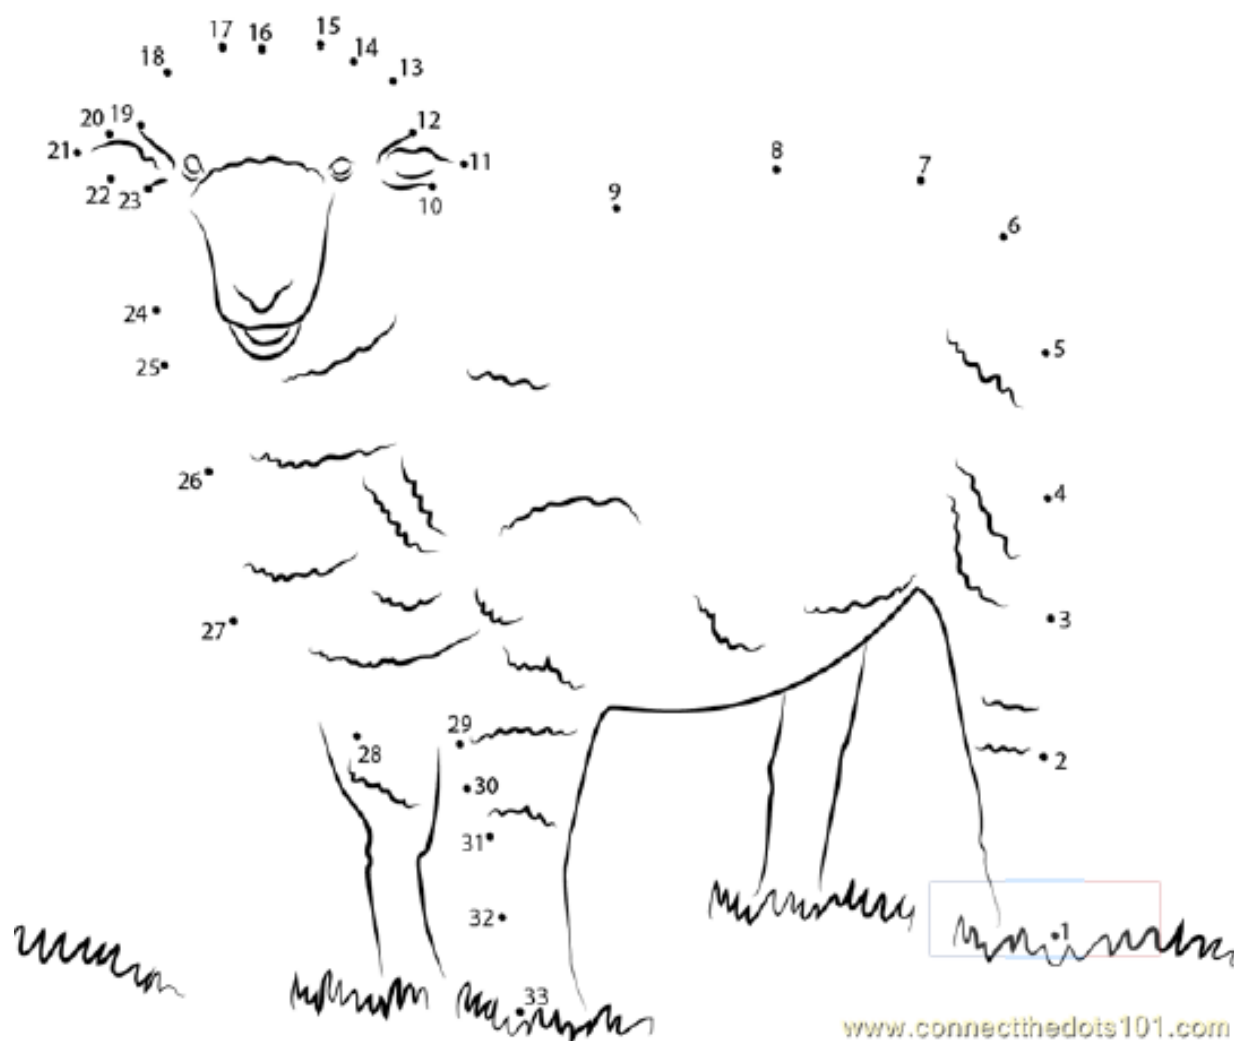

Finally, the mother returns. The youngest kid tells her what happened and together find a wolf in the neighborhood sleeping with a full stomach. They save the rest of their siblings and live happily ever after.
