THE STORY

Do you know the Seven Goats?

There is a mother goat who has seven kids. She has to leave home to get some food. Before she leaves, she warns them not to open the door to anybody because there is a big bad wolf out there just waiting for his chance to eat them.

The mother goat tells the children the wolf can be cunning. The kids should know her voice is nice and soft, and the wolf's voice is deep and rough. Her fur is white, and his fur is black, so they should notice the difference.

Soon after she leaves the house, the wolf knocks on the door and wants to enter. After many attempts, the wolf finally manages to get in. He eats them all except the youngest. This kid hides in a grandfather clock and survives.

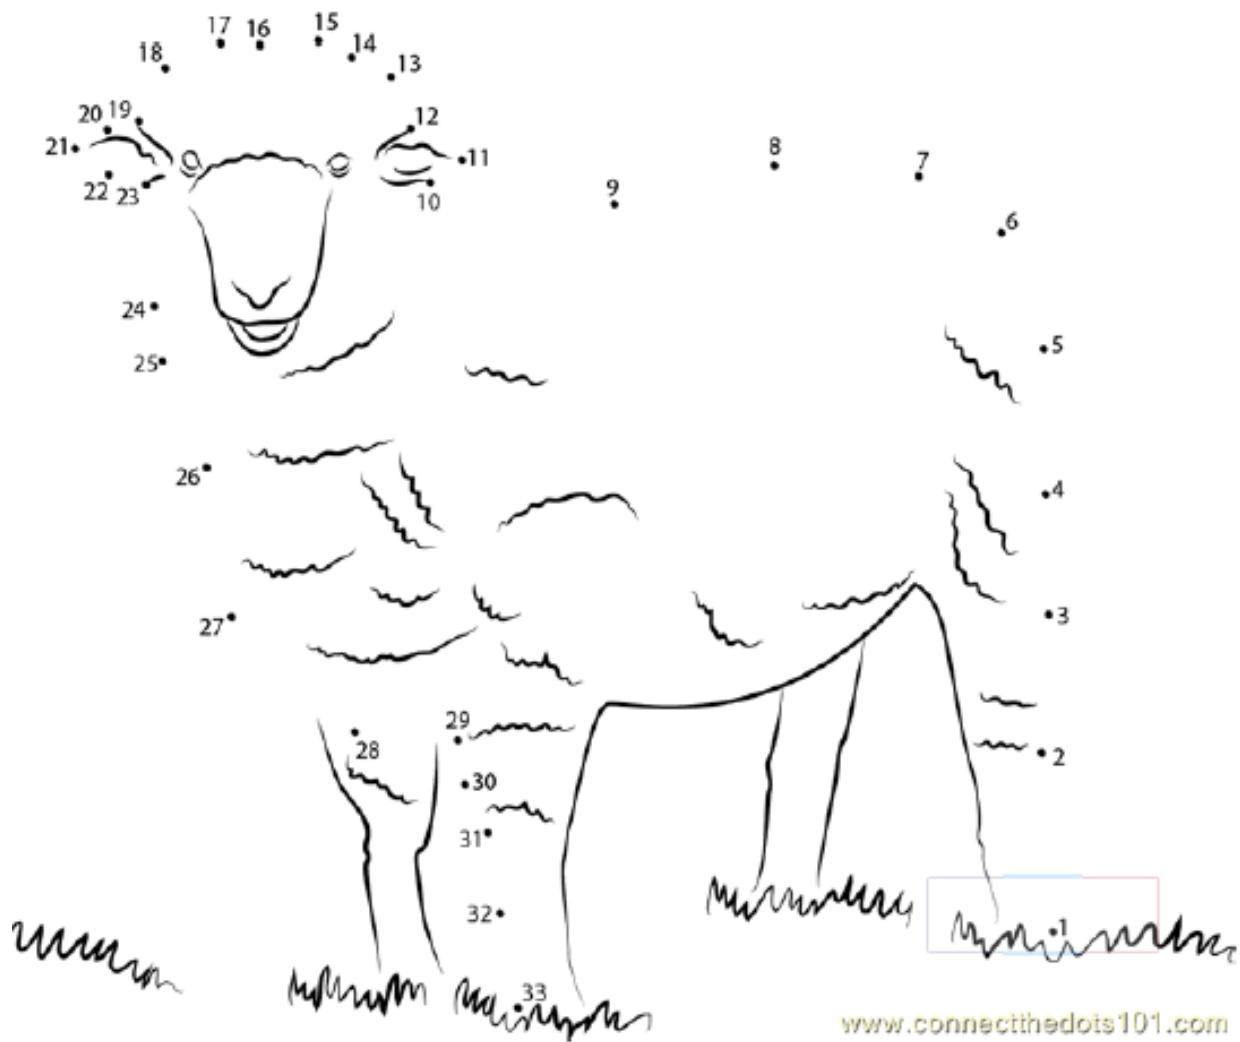

Finally, the mother returns. The youngest kid tells her what happened and together they find the wolf in the neighbourhood sleeping with a full stomach. They save the rest of the children and live happily ever after.
